Total	<u>\$ 30.5</u>	<u>\$ (3.2)</u>	NM

- Operating loss decreased \$23.5 million to \$10.5 million and Adjusted EBITDA improved \$33.7 million to \$30.5 million driven by:
 - Services operating loss decreased 52% to \$12.5 million reflecting:
 - Adjusted EBITDA loss decreasing 88% to \$2.2 million due to:

- Higher gross profit due to pricing and fulfillment optimization efforts over the past year
 - Lower operating expenses due to a reduced overall cost base as a result of exiting complex services
 - Higher depreciation due to investments in capitalized software
- *Roofing* operating income increased \$6.6 million to \$0.4 million and Adjusted EBITDA increased \$5.8 million to \$0.8 million due primarily to:
- Higher gross profit driven by the higher revenue and margin optimization efforts (both labor and material efficiencies)
 - More efficient marketing
 - Lower general and administrative expense due to headcount rationalization
- *International* operating income increased \$7.6 million to \$3.0 million and Adjusted EBITDA increased \$7.8 million to \$4.4 million due primarily to lower selling and marketing expense from more efficient marketing spend
- *Ads and Leads* operating income decreased 13% to \$13.5 million reflecting:
- Higher depreciation due to investments in capitalized software
 - Adjusted EBITDA increasing 16% to \$39.9 million due to:
 - Lower selling and marketing expense due to improved marketing efficiency
 - Lower general and administrative expense due to lower compensation costs and other operating expenses

Income Taxes

The Company recorded an income tax provision of \$3.3 million in Q1 2023, despite a pre-tax loss, due primarily to non-deductible stock-based compensation, foreign income taxed at different rates, and state taxes, partially offset by research credits. The Company recorded an income tax benefit of \$6.1 million in Q1 2022 for an effective tax rate of 15%, which is lower than the statutory rate due to stock-based award settlements and foreign income taxed at different rates.

DILUTIVE SECURITIES

Angi Inc. has various dilutive securities. The table below details these securities as well as potential dilution at various stock prices (shares in millions; rounding differences may occur).

	Shares	Avg. Exercise Price	As of 5/5/23	Dilution at:			
Share Price			\$2.44	\$3.00	\$4.00	\$5.00	\$6.00
Absolute Shares as of 5/5/2023	506.6		506.6	506.6	506.6	506.6	506.6

Total Diluted Shares Outstanding			513.8	513.8	513.9	513.9	514.0

The dilutive securities presentation is calculated using the method and assumptions described below, which are different from those used for GAAP dilution, which is calculated based on the treasury stock method.

The Company currently settles all equity awards on a net basis; therefore, the dilutive effect is presented as the net number of shares expected to be issued upon exercise or vesting, and in the case of options, assuming no proceeds are received by the Company. Any required withholding taxes are paid in cash by the Company on behalf of the employees assuming a withholding tax rate of 50%. In addition, the estimated income tax benefit from the tax deduction received upon the exercise or vesting of these awards is assumed to be used to repurchase Angi Inc. shares. Assuming all awards were exercised or vested on May 5, 2023, withholding taxes paid by the Company on behalf of the employees upon net settlement would have been \$30.4 million, assuming a stock price of \$2.44 and a 50% withholding rate. The table above assumes no change in the fair value estimate of the non-publicly traded subsidiary denominated equity awards from the values used at March 31, 2023.

ANGI INC. PRINCIPLES OF FINANCIAL REPORTING

Angi Inc. reports Pro Forma Net Revenue, Adjusted EBITDA and Free Cash Flow, which are supplemental measures to U.S. generally accepted accounting principles (“GAAP”). These are among the primary metrics by which we evaluate the performance of our businesses and on which our internal budgets are based and may impact management compensation. We believe that investors should have access to, and we are obligated to provide, the same set of tools that we use in analyzing our results. These non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. Angi Inc. endeavors to compensate for the limitations of the non-GAAP measures presented by providing the comparable GAAP measures with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the non-GAAP measures. We encourage investors to examine the reconciling adjustments between the GAAP and non-GAAP measures, which are included in this release. Interim results are not necessarily indicative of the results that may be expected for a full year.

Definitions of Non-GAAP Measures

Pro Forma Net Revenue reflects the revenue for Services jobs on a net basis for all periods presented for the Services segment and on a consolidated basis. Angi Inc. modified the Services terms and conditions so that the service professional, rather than Angi Inc., has the contractual relationship with the consumer to deliver the service and Angi Inc.'s performance obligation to the consumer is to connect them with the service professional. This change in contractual terms requires revenue be reported as the net amount of what is received from the consumer after deducting the amounts owed to the service professional providing the service effective for all arrangements entered into after December 31, 2022. We believe Pro Forma Net Revenue is useful for analysts and investors because it can enhance the comparability of revenue trends between periods and we use it for that purpose internally.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA) is defined as operating income excluding: (1) stock-based compensation expense; (2) depreciation; and (3) acquisition-related items consisting of amortization of intangible assets and impairments of goodwill and intangible assets, if applicable. We believe this measure is useful for analysts and investors as this measure allows a more meaningful comparison between our performance and that of our competitors. Adjusted EBITDA has certain limitations because it excludes the impact of these expenses.

Free Cash Flow is defined as net cash provided by operating activities, less capital expenditures. We believe Free Cash Flow is useful to analysts and investors because it represents the cash that our operating businesses generate, before taking into account non-operational cash movements. Free Cash Flow has certain limitations in that it does not represent the total increase or decrease in the cash balance for the period, nor does it represent the residual cash flow for discretionary expenditures. For example, it does not take into account mandatory debt service requirements. Therefore, we think it is important to evaluate Free Cash Flow along with our consolidated statement of cash flows.

Non-Cash Expenses That Are Excluded from Adjusted EBITDA

Stock-based compensation expense consists of expense associated with the grants, including unvested grants assumed in acquisitions, of stock appreciation rights (SARs), restricted stock units (RSUs), stock options and performance-based RSUs and market-based awards. These expenses are not paid in cash and we view the economic costs of stock-based awards to be the dilution to our share base; we also include the related shares in our fully diluted shares outstanding for GAAP earnings per share using the treasury stock method. Performance-based RSUs and market-based awards are included only to the extent the applicable performance or market condition(s) have been met (assuming the end of the reporting period is the end of the contingency period). The Company is currently settling all stock-based awards on a net basis and remits the required tax-withholding amounts from its current funds.

Please see page 6 for a summary of our dilutive securities as of May 5, 2023 and a description of the calculation methodology.

Depreciation is a non-cash expense relating to our capitalized software, leasehold improvements and equipment and is computed using the straight-line method to allocate the cost of depreciable assets to operations over their estimated useful lives, or, in the case of leasehold improvements, the lease term, if shorter.

Amortization of intangible assets and impairments of goodwill and intangible assets are non-cash expenses related primarily to acquisitions. At the time of an acquisition, the identifiable definite-lived intangible assets of the acquired company, such as service professional relationships, technology, memberships, customer lists and user base and trade names, are valued and amortized over their estimated lives. Value is also assigned to acquired indefinite-lived intangible assets, which comprise trade names and trademarks, and goodwill that are not subject to amortization. An impairment is recorded when the carrying value of an intangible asset or goodwill exceeds its fair value. We believe that intangible assets represent costs incurred by the acquired company to build value prior to acquisition and the related amortization and impairments of intangible assets or goodwill, if applicable, are not ongoing costs of doing business.

Metric Definitions

Ads and Leads Revenue - Reflects domestic ads and leads revenue, including consumer connection revenue for consumer matches, revenue from service professionals under contract for advertising and membership subscription revenue from service professionals and consumers.

Services Revenue – Reflects domestic revenue from pre-priced offerings by which the consumer requests services through a Company platform and the Company connects them with a service professional to perform the service.

Roofing Revenue – Reflects revenue from the roof replacement business offering by which the consumer purchases services directly from the Company and the Company engages a service professional to perform the service.

International Revenue – Reflects revenue generated within the International segment (consisting of businesses in Europe and Canada), including consumer connection revenue for consumer matches and membership subscription revenue from service professionals and consumers.

Corporate – Reflects costs for corporate initiatives, shared costs, such as executive and public company costs, and other expenses not allocated to the operating segments.

Pro Forma Net Revenue – From January 1, 2020 through December 31, 2022, Services recorded revenue on a gross basis. Effective January 1, 2023, we modified the Services terms and conditions so that the service professional, rather than Angi Inc., has the contractual relationship with the consumer to deliver the service and our performance obligation to the consumer is to connect them with the service professional. This change in contractual terms requires revenue be reported as the net amount of what is received from the consumer after deducting the amounts owed to the service professional providing the service effective for all arrangements entered into after December 31, 2022. There is no impact to operating (loss) income or Adjusted EBITDA from the change in revenue recognition.

(a) *Pro Forma Services Net Revenue* – Reflects Services revenue on a net basis for all periods presented.

(b) *Pro Forma Angi Inc. Net Revenue* – Reflects Services revenue on a net basis for all periods presented and as reported revenue for the other segments, none of which had changes to their revenue recognition reporting.

Metrics

Service Requests - Reflect (i) fully completed and submitted domestic service requests for connections with Ads and Leads service professionals, (ii) contacts to Ads and Leads service professionals generated via the service professional directory from unique users in unique categories (such that multiple contacts from the same user in the same category in the same day are counted as one Service Request) and (iii) requests to book Services jobs in the period.

Monetized Transactions – Reflects (i) Service Requests that are matched to a paying Ads and Leads service professional in the period and (ii) completed and in-process Services jobs in the period; a single Service Request can result in multiple monetized transactions.

Transacting Service Professionals – The number of (i) Ads and Leads service professionals that paid for consumer matches or advertising and (ii) Services service professionals that performed a Services job, during the most recent quarter.
